

Back Office

Access your till from anywhere

You can't be everywhere at once, but that doesn't mean you shouldn't be in control of your EPoS system. Our Back Office service allows you to connect to your ShopMate tills from anywhere.

Whether you're in the cash office, home office or even abroad, Back Office will give you access to your till with just an internet connection.

Back Office

Access your till
from anywhere

Why do I need Back Office?

Back Office allows you to manage products, pricing and view reports for your EPoS system from anywhere via the internet.

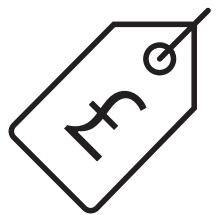

Up to date reports:

ShopMate already provides you with reports on finances, category sales, profits, footfall and more. Back Office gives you remote access to all your reports so you can keep up to date and manage your store from anywhere.

Real time price management:

ShopMate automatically updates price files as part of our service to you. Back Office will give you remote access to your prices so you can manage pricing accordingly and print updated Shelf Edge Labels.

Promotions:

Have a moment of inspiration? With Back Office, you can create and manage promotions on the go, see how well they've done in real-time reports and tweak them from anywhere to make your business even more profitable.

What can Back Office do?

Back Office offers a wide range of functionality including:

- Staff Administration
- Price Management
- Promotions
- Hot Key Management
- Transaction Details
- SEL Production
