Barclaycard: An easy way to boost your takings

Every retailer knows how important it is to offer a variety of payment methods. It is also important that your payment options are reliable and convenient for customers.

Why do I need Barclaycard Chip & Pin?

More payment options for your customers

We know how important it is to offer shoppers a range of options, even in ways to pay. In addition to Chip & Pin, our Barclaycard terminals can also process Apple Pay and Google Wallet transactions.

A cost-effective option

Whilst offering a range of payment options is important, it is also important to keep overheads low. Barclaycard offers competitive rates based on the individual finances of the retailer with an additional low monthly rental of £16 per unit.

Convenient and efficient - integrated Chip & Pin

Barclaycard is integrated within ShopMate and transactions are processed via the till's broadband connection. This means there is no need for rekeying on a separate pin-pad and transactions are processed in seconds.

Set Up Barclaycard Today

Setting up Barclaycard is a simple process. Just call us on **01780 480 562** today to express your interest.

We will then contact Barclaycard on your behalf and they will contact you to discuss your requirements and to sign you up.

If you have any questions about Barclaycard, email **office@retaildata.co.uk**.
